👤 PROFILE

Motivated MCA Graduate Seeking Employment Opportunities. Hardworking and detail-oriented MCA graduate with a solid foundation in computer applications, programming, and software development. Skilled in various office technologies, social media platforms, and modern development tools. Committed to applying my technical knowledge and problem-solving abilities to contribute effectively to organizational goals. Eager to learn, grow, and add value as part of a dynamic team.

🧠 TECHNICAL SKILLS

- Python
- Angular
- Mysql
- JavaScript
- HTML
- CSS
- Bootstrap
- Github
- Deep Learning
- Flask

📁 PROFESSIONAL EXPERIENCE

Full Stack Web Development - Intern

BEINEX Consulting, Kochi

09/2022 – 12/2022 | Ernakulam, India

🎓 EDUCATION

MCA

Mar Baselios institute of technology and science

08/2023 – 05/2025 | Kothamangalam, India

BSC COMPUTER SCIENCE

UIT ALAPPUZHA

07/2019 – 05/2022 | Kerala University, India

CGPA : 5.58

HIGHER SECONDARY

Ghss Kakkazhom

2019 | Alappuzha, India

PERCENTAGE : 61.66

MATRICULATION

KKPMGHSS AMBALAPUZHA

2017 | Alappuzha, India

PERCENTAGE : 81

📖 COURSES

Training Program in Flutter

Right Soft Options, Kaloor

Kochi

PRIVACY AND SECURITY IN SOCIAL MEDIA

NPTEL

01/2024 – 04/2024

📁 PROJECTS

TEXT TO IMAGE GENERATOR USING STABLE DIFFUSION 2-1 BASE MODEL

Text-to-Image Generator using Stable Diffusion 2-1 Base Model Built a text-to-image generation system using the Stable Diffusion 2-1 base model to transform natural language prompts into high-quality images. Designed the pipeline for prompt processing, image decoding, and GPU-accelerated inference. Gained practical experience with diffusion models, deep learning workflows, and model optimization techniques.

SOFT SKILLS

Communication

Speaking multiple languages, such as English, Hindi, Malayalam, Tamil, makes it easier to communicate with others.

Time Management

I can keep proper time management for doing particular tasks.

Research Skills

Reading model documentation and applying best practices.

INTERESTS

- Gaming
- Playing Cricket
- Listening Music

BMI INDEX PREDICTION USING IMAGES

Developed a deep learning model to estimate Body Mass Index (BMI) from human body images using computer vision techniques. Utilized a ResNet50-based CNN architecture with additional dense layers for regression. Implemented human mask generation and preprocessing pipelines to extract relevant features and reduce noise. Trained and evaluated the model on labeled image datasets, achieving reliable predictions. Integrated the model into a Streamlit web application for interactive BMI inference.

AMAZON-CLONE-WEB

It is a clone application of Amazon which was created by using the Angular.

DECLARATION

I hereby declare that all the information given above is true and correct to the best of my knowledge and belief. All the information shared in the resume is correct, and I take full responsibility for its correctness.
